6.NS.2 Tell if each statement is true or false

- |    |                               |      |       |
|----|-------------------------------|------|-------|
| A. | $27 \times 4 = 1280 \div 10$  | True | False |
| B. | $1536 \div 12 = 11 \times 13$ | True | False |
| C. | $3612 \div 21 = 4 \times 43$  | True | False |
| D. | $16 \times 24 = 6912 \div 18$ | True | False |

Choose 1 statement. Explain how you decided if it was true or false.
